

INTSUP EXPORT FINANCING

YOUR SOURCE FOR THE WORLD!

International Suppliers is pleased to offer you our expertise in the field of export financing.

If the product to be exported is more than 51% made in the USA based on cost, we can assist you—even when the product is not purchased from us. In collaboration with government and private sector lenders, we can support you in providing and obtaining credit and insuring against loss from many of the risks of nonpayment present when dealing with a foreign buyer. Products to be covered can include, but are not limited to: consumables, agricultural commodities, raw materials, spare parts, tools, and consumer durables. After approval terms of payment can be up to 180 days.

Eligible exporters include U.S. corporations, partnerships or individuals organized or residing in the United States, foreign corporations, partnerships or individuals doing business in the United States, and foreign sales corporations controlled by U.S. corporations, partnerships or individuals organized or residing in the United States.

Foreign purchasers can be either private or public, and must be creditworthy entities located in acceptable countries.

As you might expect, credit insurance and financing are all dependent on certain factors which include but are not limited to creditworthiness, location, and the products in question. The products in question can not be intended for military use or be destined for a Marxist—Leninist country. For more information, please submit a completed application or contact International Suppliers so that we can find a solution for your needs.
